SKILLS

Languages: JavaScript, Dart

Technologies & Tools: React JS, Node JS, Express JS, MongoDB, Flutter, Git, REST APIs, Firebase, State Management (Redux, Context API, Provider), Responsive Design

WORK EXPERIENCE

Octoze Technologies Pvt Ltd (Camu), Tamil Nadu

Feb 2024 - Present

Full Stack Developer

- Developing and maintaining full-stack web applications using the MERN stack (MongoDB, Express JS, React JS, Node JS) for educational technology solutions.
- Designed and implemented RESTful APIs with Express JS and Node JS, handling authentication, authorization, and data validation for secure backend services.
- Built responsive and dynamic user interfaces with React JS, implementing state management using Redux and Context API for optimal application performance.
- Developed database schemas and optimized MongoDB queries for efficient data retrieval and storage, improving application response times by 30%.
- Collaborated with cross-functional teams in agile sprints to design, develop, test, and deploy scalable features for the Camu platform.
- Implemented modern development practices including Git version control, code reviews, and CI/CD pipelines to ensure high-quality deliverables.
- React JS, Node JS, MongoDB, Express JS, JavaScript, REST APIs, Git, Redux, Responsive Design, API Integration, Agile Methodologies

Freelance Mobile Developer

Jan 2024 - Feb 2024

Flutter Developer

- Developed mobile applications for clients using Flutter and Dart, focusing on attendance tracking and donation management systems.
- Integrated Firebase services for authentication, real-time database, and cloud messaging in mobile applications.
- Flutter, Dart, Firebase, State Management, REST APIs, SQLite

EDUCATION

NPR College of Engineering and Technology

Aug 2020 – Jun 2024

B.E. in Computer Science and Engineering

CGPA: 7.76 / 10

PROJECT WORK

- **Book Service Booking Platform (College Project):** Developed a full-stack web application for booking and managing various services. Built with MERN stack featuring user authentication, service catalog, booking management, and admin dashboard. Implemented JWT-based authentication and real-time booking updates. React JS, Node JS, Express JS, MongoDB, REST APIs, JWT Authentication.
- **Camu Platform Features:** Contributed to building scalable features for the Camu educational technology platform including student management systems, course enrollment workflows, and administrative dashboards with data visualization. MERN Stack, Redux, Chart.js, RESTful APIs.
- **Geofence Attendance:** Created a location-based attendance system using geofencing technology with GPS integration and offline capability. Flutter, Dart, Google Maps API, SQLite.
- **Trust Application:** Developed a donation management mobile app with secure payment integration and real-time tracking. Flutter, Dart, Firebase, Payment Gateway APIs.

TECHNICAL PROFICIENCIES

- **Full Stack Development:** Expertise in MERN stack (MongoDB, Express JS, React JS, Node JS), RESTful API design and implementation, Authentication and authorization (JWT, OAuth), Database design and optimization, Responsive web design principles
- **Frontend Development:** React JS with hooks and functional components, State management (Redux, Context API), HTML5, CSS3, JavaScript ES6+, Responsive UI/UX implementation
- **Backend Development:** Node JS and Express JS server development, MongoDB database management and schema design, API security best practices, Middleware implementation
- **Development Practices:** Version control with Git and GitHub, Agile development methodologies, Code documentation and technical writing, Testing and debugging, CI/CD practices

CERTIFICATIONS & ACHIEVEMENTS

- **Full Stack Web Development:** Completed comprehensive training in MERN stack development, focusing on building scalable web applications with modern JavaScript frameworks and best practices.
- **Database Management:** Specialized training in MongoDB database design, indexing strategies, aggregation pipelines, and performance optimization techniques.
- **API Development:** Certified in RESTful API design principles, implementing secure authentication mechanisms, and building scalable backend services.
- **Open Source Contributions:** Active contributor to open-source projects on GitHub, collaborating with developers worldwide to improve code quality and functionality.

PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of professional experience specializing in the MERN stack. Proven track record of developing and deploying scalable web applications for the educational technology sector. Strong foundation in both frontend and backend development with expertise in React JS, Node JS, Express JS, and MongoDB. Passionate about writing clean, maintainable code and implementing modern development practices. Demonstrated ability to work effectively in agile teams while managing multiple projects and delivering high-quality solutions within tight deadlines.

AREAS OF INTEREST

- **Cloud Technologies:** Exploring AWS, Azure, and Google Cloud Platform for deploying and scaling full-stack applications
- **Microservices Architecture:** Learning microservices design patterns and containerization with Docker and Kubernetes
- **DevOps:** Implementing CI/CD pipelines, automated testing, and deployment strategies for efficient software delivery
- **Modern Web Technologies:** Staying updated with latest trends in web development including Next.js, TypeScript, and GraphQL
